Professional Summary

Enthusiastic and results-driven Software Trainer & Developer with over 4 years of experience delivering hands-on technical training, curriculum development, and project-based learning across Python, Java, Full Stack Development (MERN), Data Science, AI, and Machine Learning. Proven track record in training 150+ students, facilitating workshops, designing training material, and aligning instructor-led course delivery with real-world industry demands. Adept in full stack backend development, REST API integration, predictive modeling, and mentoring learners through end-to-end capstone projects, model deployment, and cloud basics.

Technical Skills

- **AI, Machine Learning & Data Science:** Artificial Intelligence (AI), Machine Learning (ML), Deep Learning, Natural Language Processing (NLP), Generative AI, Large Language Models (LLMs), AI Agents / Agentic AI, Neural Networks, Supervised & Unsupervised Learning, Predictive Modeling, Feature Engineering, Data Preprocessing, Data Cleaning, Data Wrangling, Model Evaluation, Model Training, Model Testing, Model Deployment.
- **Data Analysis & Visualization:** Exploratory Data Analysis (EDA), Statistical Analysis, Data Visualization, NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn, PyTorch, OpenCV, Power BI.
- **Web Development & Stacks:** MERN Stack (MongoDB, Express, React, Node.js), Django, Django REST Framework, Python Backend Development, REST API & API Development, CRUD Operations, Authentication & Authorization, Responsive Web Design.
- **Languages & Web Technologies:** Python, Java, PHP, JavaScript, HTML5, CSS3, Bootstrap, MySQL.
- **DevOps, Tools & Technology:** Git, GitHub, Version Control, Docker, AWS (Basics).
- **Training & Mentorship:** Technical Training, Instructor-Led Training, Corporate Training, Curriculum Development, Course Development, Training Delivery, Technical Mentoring, Student

Mentoring, Hands-on Training, Project-Based Learning, Lab Sessions, Practical Assessments, Workshop Facilitation, Learning & Development, Training Material Development, Interview Preparation, Career Guidance.

Professional Experience

Software Consultant | Technovalley

Jan 2024 – Present

- Delivered hands-on technical training in Python, Django, AI/ML, Data Science, and MERN Stack, incorporating real-world projects, API development, database integration, and model-building exercises.
- Mentored 150+ learners through end-to-end capstone projects, including requirements analysis, application development, machine learning model implementation, testing, debugging, Git/GitHub workflows, and deployment.
- Customized course modules and training material aligned with real-world applications, emerging industry trends, and learning & development standards.
- Assisted in deploying student-built applications and predictive models on cloud platforms (AWS basics) and Docker environments.

Software Trainer & Developer | CADD Centre

Feb 2022 – Mar 2023

- Conducted instructor-led training sessions on Python programming, Data Science, Data Visualization, and MERN Stack development.
- Supervised, reviewed, and evaluated student projects focused on responsive full-stack web apps and predictive machine learning models.
- Utilized Git, GitHub, and version control systems to teach collaborative software workflows, repository management, and code reviews.

Software Trainer & Developer | Aptech

Jan 2021 – Jan 2022

- Taught core concepts in Java, Python, Object-Oriented Programming (OOP), and Full Stack web development through lab sessions and practical assessments.
- Assisted students with interview preparation, career guidance, algorithmic logic, and structured problem-solving skills.
- Designed practical assignments and mini-projects featuring REST API integration, authentication, and front-end responsiveness.

Software Trainer & Developer | IPSR

Jun 2018 – Dec 2019

- Focused on teaching Python fundamentals, core OOP design principles, and project-based learning modules.
- Guided students through academic projects with a strict emphasis on modular code quality, data structures, and backend logic.

Projects & Highlights

- **Student Mentorship:** Mentored 150+ students across Technovalley, CADD Centre, Aptech, and IPSR in full-stack engineering and AI/ML workflows.
- **Curriculum & Content Creation:** Designed and delivered 20+ academic and industry-aligned projects, reusable course content modules, practical assessments, and workshop materials for technical upskilling.
- **Technical Workshops:** Facilitated interactive workshops on ML-based predictive modeling, exploratory data analysis, and responsive web app architectures.

Education

- **M.Tech - Computer Science Engineering** | Graduated: 2023
- **B.Tech - Computer Science Engineering** | Graduated: 2018
- **Higher Secondary Education (Science)** | Completed: 2014
- **High School Education** | Completed: 2012

Certifications

- Full Stack Developer Training – CADD Centre (2023)
- Data Science & Machine Learning – CADD Centre (2022)
- Python Programming – IPSR (2019)
- PHP & Web Development – Right Human Skills (2018)

Personal Details

- **Date of Birth:** 01 May 1996
- **Marital Status:** Single
- **Nationality:** Indian
